

PROJECT MANAGER, INFORMATION TECHNOLOGY

“Highly accomplished, versatile, and innovative professional, offering more than 20 years of strong leadership, IT strategic planning, project management and team building expertise.”

PROFILE SUMMARY

Visionary and goal-oriented leader with ability to produce solutions across many departmental boundaries and large organizations on small and large-scale, multi-million dollar projects. Bachelor's Degree in Business Administration, Micro MBA, and 2009 Six Sigma Blackbelt Certification, with emphasis on quality management methods and statistical analysis. Exceptional human relations training, professional management, as well as needs assessment. Overcome complex challenges and making high-stakes decision using experience-backed judgment, strong work ethic, and irreproachable integrity.

E-Commerce ▪ Program Management ▪ Strategic Planning ▪ Technology Integration

RELEVANT EXPERIENCE

PROJECT MANAGEMENT

- Designed centralized Oracle database for cross-agency use, saving Arizona taxpayers money.
- Coordinated creation of national partnership with AOL for state portal, functioning as liaison, program manager, and assisting development team with database design and information gathering.
- Oversaw all of Utah's Internet initiatives, defining standards, specifying platforms for e-government. In this role, oversaw projects involving 50 different state departments, including team of 20 to 30 individuals, from needs assessment to programming, launch, testing, and evaluation.
- Managed \$1.2M project for Department of Revenue, overseeing transition from IBM-based infrastructure.

STRATEGIC PLANNING

- Designed strategic business plans for new growth opportunities, offering consulting expertise to businesses.
- Advised and coordinated the uniformity of state of Idaho's Internet activities and Web technologies.
- Provided coordination and consultation to state agency's IT needs and challenges to meet strategic requirements.

TECHNOLOGY NEEDS ASSESSMENT

- Collected application requirements from end-users and management and created end-user training program.
- Coordinated research and development of statewide IT applications, facilitated and implemented technology planning efforts and initiatives, including the State of Idaho Electronic Commerce Service Provider RFP.
- Ensured that state agency IT plans fell within the IT parameters established by statutory guidelines.

RELATIONSHIP DEVELOPMENT

- Developed and established partnerships to enhance e-commerce opportunities; coordinated government RFP bids.
- Cultivated, maintained, and managed vendor relationships for state agency to accomplish business goals.
- Executed organizational changes across many different departments to improve technological efficiencies.

GENERAL MANAGEMENT & LEADERSHIP

- Guided executives on corporate management issues regarding budgeting, re-engineering and IT strategies.
- Contributed to the development of policies and procedures for state agencies IT requirements.
- Designed and co-wrote the Idaho's electronic signature law, leading to reduced paperwork burden.
- Successfully resolved a crisis situation in critical application by performing code inspection.

PERSONNEL FACILITATION / TRAINING

- Solved IT personnel problem for state of Idaho and assembled top-notch teams to fulfill anticipated contracts with innovative revenue model to save taxpayers money and get Idaho development work that it couldn't afford.
- Developed and trained sales representatives throughout Western Region of major pharmaceutical company.
